Look at this man: This is so brazenly not the style of someone who is frequently referenced as "having gone to Harvard" but damn Houston Texans Hats , it actually suits him and he deserves it. I'm buying the FltzMagic for one more week and actually started him over Matthew Stafford in the BRB fantasy league this week. I'm committed to the magic this man evokes with his every fling of the football. It's not like this Tampa Bay offense isn't moving along at a ridiculous pace with a armada of weapons to throw to, such as big, tall tree Mike Evans, human deep threat DeSean Jackson, and two exciting, young players in receiver Chris Godwin and O.J. Howard.On the other side of the aisle Houston Texans Womens Hoodie , the Steelers are still without star running back Le'Veon Bell as he remains in a holdout with Pittsburgh management over his contract.The Steelers somehow also had to deal with rumors about Antonio Brown getting traded last week because a former Steelers staffer called Brown overrated on Twitter. Isn't life grand?However we got here, this is your open thread for Monday Night Football. Enjoy!
